16 - 18 MAY 2024

BARCELONA, SPAIN

ZCN SERVICIOS

LOGISTICS & FORWARDING

Your shipment anywhere in the world

2026

"Sometimes you must wonder about the number of actors in the logistics chain and think about how to best manage it"

ZCN SERVICIOS
LOGISTICS SERVICES & PROJECTS
Chile

Founded in 2017, ZCN has developed a distinctive business model based on the experience of its professionals, full dedication and proactivity.

We make it simpler for you

ZCN SERVICIOS
LOGISTICS SERVICES & PROJECTS
Chile

More than transporting products, ZCN manages the entire process ensuring that the cargo arrives at its destination in a safe and cost-effective manner.

Our Services

Project Cargo

We have the technical knowledge and experience required to handle project cargos and offer the ideal logistic solutions wherever they are thru our worldwide network

Ocean Freight

We offer ocean freight services from major ports in the world, with fair tariffs and negotiated demurrage. We are ready to guide you on the best route options no matter what type of cargo: machines, vehicles, OOG, dangerous cargo, amongst others.

Air Freight

We offer a variety of alternatives for the transport of air cargo to attend all of your company's requirements.
Through our extensive network we have contracts with the major airlines in the world, thus being able to guarantee the best transport conditions, the best possible market tariffs, and the best space in flight.

ZCN

Our Services

Custom Brokerage

Our customs clearance partners can advise you on complying with customs regulations and working with the proper declared value, tariffs and duties. Let us help you set up a well-thought-out customs strategy, and get your goods to the market without costly delays.

Inland Transportation

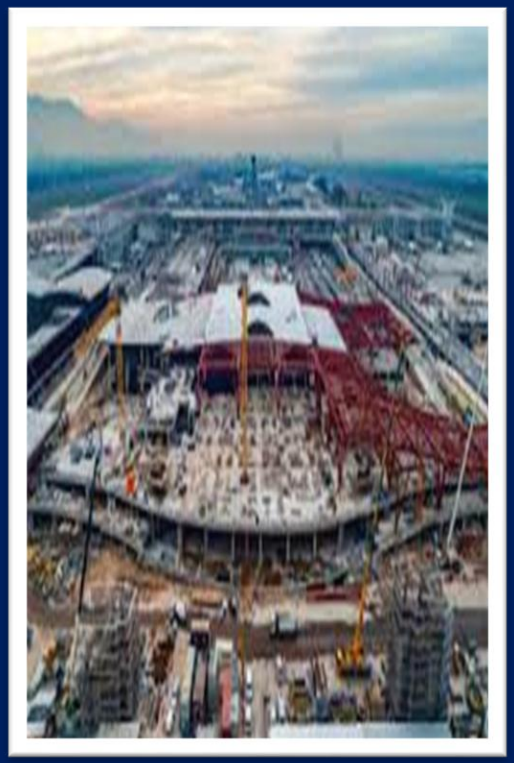

Regardless of the size of your cargo, ZCN transports your shipment wherever you go. Through road transport, we carry loads of all types and sizes in a flexible and fast way, door-to-door, always presenting innovative solutions, practical and competitive prices.

Add Value Services

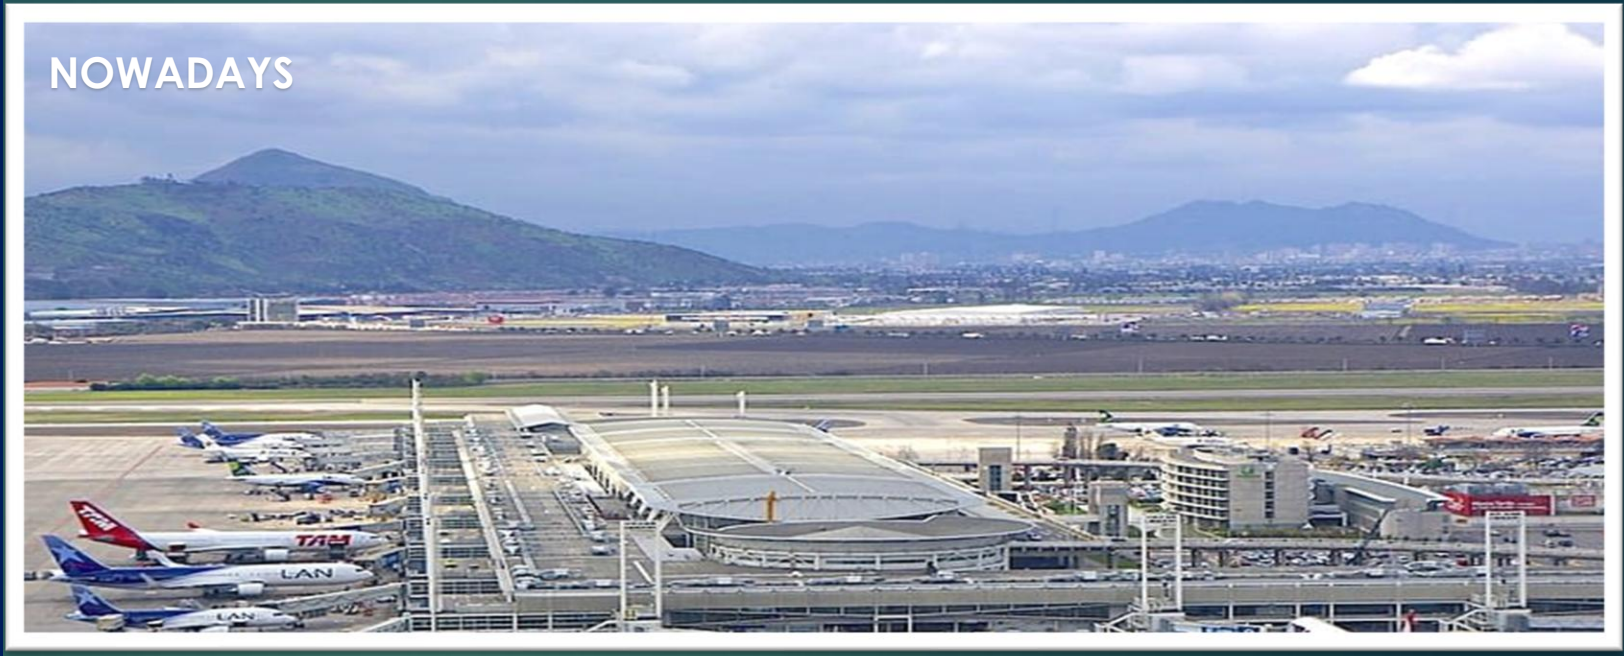

- Planning, controlling and viability of projects;
- Examination of viability geometrical and structural;
- Loading and unloading of equipment
- Reduction of price through optimization of processes.

Worldwide Network

Besides our traditional partners we belong to the Americas Alliance, Alfa breakbulk Networks and Atlas Breakbulk Alliance an exclusive global breakbulk network which ensures that we can serve our customers no matter what they need, import or export . We have entered the WCA World network since September 2022 .
Which brings together 5,806 Agents around the world and they are in 165 countries.
In April 2023, we joined the DF Alliance Network (belonging to DP World).
We were founded in 2020 by DP World. Two years later and we are at over 5000 members.
